

Cell line and biologics testing for rodent pathogens

Mouse Profiles

	NSP CELLS I (21 agents)	NSP CELLS II (17 agents)	NSP CELLS III (14 agents)	NSP CELLS IV (7 agents)
Minute Virus of Mice (MVM)	X	X	X	X
Mouse Hepatitis Virus (MHV)	X	X	X	X
Mouse Parvovirus (MPV-1, MPV-2)	X	X	X	X
<i>Mycoplasma pulmonis</i>	X	X	X	X
<i>Mycoplasma spp.</i>	X	X	X	X
Pneumonia Virus of Mice (PVM)	X	X	X	X
Sendai Virus	X	X	X	X
Theiler's Murine Encephalomyelitis Virus (TMEV)	X	X	X	X
Ectromelia Virus	X	X	X	
Lactate Dehydrogenase-Elevating Virus (LDEV)	X	X	X	
Lymphocytic Choriomeningitis Virus (LCMV)	X	X	X	
Mouse Norovirus (MNV)	X	X	X	
Mouse Polyomavirus (MPOLYM)	X	X	X	
Mouse Rotavirus (EDIM)	X	X	X	
Respiratory enteric Virus (Reovirus type 3)	X	X	X	
Mouse Adenovirus (FL)	X	X		
Mouse Adenovirus (K87)	X	X		
Mouse Cytomegalo Virus (MCMV)	X	X		
Mouse K Virus	X			
Hantaviruses*	X			

* Includes Hantaan, Seoul and Sin Nombre strains

Rat Profiles

	NSP CELLS V (16 agents)	NSP CELLS VI (9 agents)
Kilham Rat Virus (KRV)	X	X
Lymphocytic Choriomeningitis Virus (LCMV)	X	X
<i>Mycoplasma pulmonis</i>	X	X
<i>Mycoplasma spp.</i>	X	X
Pneumonia Virus of Mice (PVM)	X	X
Rat Minute Virus (RMV)	X	X
Rat Parvovirus (RPV, type 1 and 2)	X	X
Sendai Virus	X	X
Sialodacryoadenitis / Coronavirus (SDAV)	X	X
Toolan H1 Parvovirus	X	X
Hantaviruses*	X	
Mouse Adenovirus (FL)	X	
Mouse Adenovirus (K87)	X	
Rat Theilo Virus (RTV)	X	
Respiratory enteric Virus (Reovirus type 3)	X	

* Includes Hantaan, Seoul and Sin Nombre strains

- For biological or cell culture samples, send one cryovial for each sample containing a minimum of 1×10^6 - 1×10^7 cells/vial. Cells can be in the form of a pellet or suspended in growth media or phosphate-buffered saline.
- For liquid samples, send one cryovial of each sample containing 0,5 ml of sample/vial.
- Smaller volumes of sample may also be evaluated if limited amounts of the sample are available. Please contact us prior to shipping.
- Material should be collected aseptically to prevent inadvertent contamination of samples.
- Samples should be frozen and shipped overnight with sufficient dry ice to ensure they remain frozen upon arrival.
- Please inquire for additional testing options and agents.

Additional testing services are available for mice, rats, cell lines and other species and samples.
