

## ABOUT

### Alison M. Bendele, DVM, Ph.D., DACVP Pathologist

Alison Bendele joined Inotiv in April 2021 as one of our pathologists after Inotiv acquired Bolder BioPATH in April 2021.

Before joining Inotiv's team, Dr. Bendele earned her DVM at Texas A&M, then completed her Ph.D. in veterinary anatomic pathology at Purdue University.

After her training, Alison took a position at Eli Lilly, serving for nearly a decade as a pathologist specializing in discovery research and safety evaluation followed by 5 years at Amgen Boulder as director of preclinical pharmacology.

During her time at both Lilly and Amgen she published extensively on animal models of osteo and rheumatoid arthritis with a focus on the evaluation of potential therapeutic agents.

In 1998 she founded Bolder BioPATH, a CRO that initially specialized in osteoarthritis and rheumatoid arthritis models which grew to include most inflammatory disorders.

Inotiv is proud to have such an accomplished pathologist and arthritis expert on our team.

## 37 Years' Experience

### Areas of Expertise

- Osteoarthritis
- Rheumatoid Arthritis
- Inflammatory Bowel Disease
- Lupus
- Toxicologic Pathology

### My Jam

- Horses
- Guitar
- Gardening
