

ABOUT

Rebecca R. Moore, DVM, DACVP

Toxicologic Pathologist, USA

~15 Years' Experience

Areas of Expertise

- Oncology
- Respiratory System Pathology
- Ocular Pathology
- Rodent Pathology
- Vascular Graft/Medical Device

My Jam

- Showing Dogs
- Dog Agility
- Running
- Classical Pianist

Rebecca Moore joined Inotiv in October 2015 as a Toxicologic Pathologist. At Inotiv, Dr. Moore has served as the quality assessment pathologist and performed pathology data reviews and audits of pathology specimens on National Toxicology Program (NTP) rodent Modified One Generation, Reproductive Assessment by Continuous Breeding, subchronic, and chronic toxicity/carcinogenicity studies; and she has organized pathology working groups (PWGs) for NTP studies. In addition, she has performed special histopathological evaluations for NIEHS/NTP investigators.

Dr. Moore has served as the study pathologist and peer review pathologist on Endocrine Disruptor Screening Program (EDSP), medical device, subchronic, and chronic toxicity/carcinogenicity studies. She has a special interest in rodent pathology, ocular pathology, and respiratory system pathology.

Prior to coming to Inotiv, Dr. Moore was a Senior Veterinary Pathologist at Experimental Pathology Laboratories (EPL) after serving as an Intramural Postdoctoral Fellow with the NTP at the NIEHS. She was the study pathologist or peer review pathologist on various research studies for government and commercial clients. In addition to her veterinary pathologist duties, she served as the Histology Laboratory supervisor and managed the Immunohistochemistry Service.

Dr. Moore received her D.V.M. degree from North Carolina State University College of Veterinary Medicine and is an A.C.V.P. Diplomate.
